

PHYSICAL ACTIVITY, UNDIRECTED PLAY AND STUDENT DISCIPLINE

5035.

RECESS AND PLAY-BASED LEARNING

It is the policy of the Meriden Board of Education (the “Board”) to promote the health and well-being of district students by encouraging healthy lifestyles and mental health wellness, including promoting physical exercise, activity and play as part of the school day within the Meriden Public Schools (“District”).

For purposes of this policy, a “school employee” is defined as (1) a teacher, substitute teacher, school administrator, school superintendent, guidance counselor, school counselor, psychologist, social worker, nurse, physician, school paraprofessional or coach employed by the Board or working in the district schools, or (2) any other individual who, in the performance of his or her duties, has regular contact with students and who provides services to or on behalf of students enrolled in the district schools pursuant to a contract with the Board.

For purposes of this policy, “recess” means the time during the regular school day for each student enrolled in elementary school that is devoted to physical exercise of not less than twenty minutes in total pursuant to Conn. Gen. Stat. § 10-221o.

I. Deprivation of Recess or Undirected Play Period as a Form of Discipline

For elementary school students, the Board includes a time of not less than twenty (20) minutes in total, during the regular school day, for recess, except that a planning and placement team (“PPT”) may develop a different schedule for students requiring special education and related services.

The administration may include additional time, beyond the twenty (20) minutes required for recess, devoted to undirected play during the regular school day for elementary school students.

In an effort to promote physical exercise and undirected play, the Board prohibits school employees from disciplining elementary school students by preventing them from participating in the full twenty (20) minutes of recess or additional time devoted to undirected play during the regular school day, except in accordance with this policy or as determined by a student’s Section 504 team or PPT.

A. Recess Period

School employees may prevent or otherwise restrict a student from participating in the entire time devoted to recess as a form of discipline only under the following circumstances:

1) When a student poses a danger to the health or safety of other students or school personnel;
or

2) If there are two or more periods devoted to recess in a school day, then when the prevention or restriction of recess is limited to the period of recess that is the shortest in duration, provided that the student still participates in at least twenty minutes of recess in a school day.

School employees may prevent or restrict a student from participating in the entire time devoted to recess as a form of discipline, in accordance with this policy, only one time during a school week, unless the student is a danger to the health or safety of other students or school personnel.

School employees may not prevent or restrict a student from participating in the entire time devoted to recess if such prevention or restriction is related to the student's failure to complete school work on time or to the student's academic performance.

This policy distinguishes between a) discipline that is imposed before recess begins and b) discipline imposed during recess or methods used to redirect a student's behavior during recess. School personnel may impose discipline during recess as a result of student's behavior during recess, if such discipline is in accordance with Board policies and procedures. School personnel may also use methods to redirect a student's behavior, in the event such behavior warrants redirection, during recess. For clarity, the prohibition against preventing or restricting a student's participation in the time devoted to recess shall apply to student conduct that occurs prior to the recess time, rather than during the recess time.

B. Undirected Play Period

School employees may not discipline elementary school students by preventing them from participating in the full time devoted to undirected play, if any, during the regular school day, except when a student poses a danger to the health or safety of other students or school personnel, or as determined by a student's Section 504 team or PPT.

II. Play-Based Learning Requirements for Pre-Kindergarten to Grade Five
