

Attendance Services 5112.1 (R)

The city-wide attendance counselor coordinates a program of attendance regulations for students enrolled in school from kindergarten through grade twelve. Problems of non-attendance, absenteeism and truancy are investigated in an efficient manner and a team concept is stressed. Teachers, administrators, and pupil personnel staff members work together to enhance attendance and motivate students to attend school on a regular basis. Programming flexibility and special counseling is available and encouraged as the needs arise.

Approved 4/28/1981
